Web Programmer, Wales Deanery (Postgraduate Medical and Dental Education)

Cardiff University

Location: Cardiff	Placed on: 23rd June 2015
Salary: £31,342 to £37,394 Per annum (Grade 6)	Closes: 7th July 2015
Hours: Full Time	Job Ref: 3496BR
Contract Type: Contract / Temporary	

The Wales Deanery (Postgraduate Medical and Dental Education: (PGMDE) is looking to recruit a Web Programmer. This is an exciting opportunity to make a valuable contribution to an innovative development team in Postgraduate Medical and Dental Education at the Wales Deanery. You will be working on I.T. projects which facilitate and support key functions for the benefit of doctors and patients in Wales. The position requires sound knowledge of PHP and Javascript programming environments and knowledge of Linux Server environments. Systems analysis skills would also be useful.

You will be working in a dynamic, creative team of five which delivers projects of high quality to tight timescales. You will be an effective team player, able to learn and adapt quickly to change and new challenges. The role will require you to be involved in designing, developing, testing and demonstrating outcomes to stakeholders.

Contract Type: This is a full time (35 hours), fixed term position for 2 years.

In line with Cardiff University policy, the School reserves the right to close vacancies prior to the advertised date should suitable applications be received.
